

Template 11

A symmetrical, grid-based layout designed to showcase three high-level concepts side-by-side. This design excels at comparing different services, packages, or core values by giving each "pillar" equal visual weight.

Color Palette

- **Background:** Platinum Blue (#E6ECF2).
 - **Feature Cards:** A Dodger Blue (#0496FF) linear gradient.
 - **Icons:** Pure White (#FFFFFF) line art. Use icons from the icon library
 - **Subtopic Pills:** Pure White (#FFFFFF) rounded rectangles.
 - **Enumeration Circles:** Dodger Blue gradients.
 - **Text (Titles):** Pure White (#FFFFFF).
 - **Text (Subtopics):** black.
-

Layout & Key Elements

The Three Pillars (Full Screen)

- Three uniform, rounded-corner cards arranged horizontally across the frame.

Asset: Base_Container.png

- **Visual Anchor:** Each card features a large, centered icon in white line art. Use an icon from the icon library and colour it fully white. Above the icon is the centre aligned "text (Titles)" whose font is inter extrabold and sized at 55px

Use three different icons from the icon library for each of the three pillars.

The Subtopic Footer

- **The Pill Base:** At the bottom of each card is a white stadium-shaped pill containing the descriptive text. The texts font is satoshi medium and it's sized at 33px
- **The Index Circle:** On the far left of each pill is a colored circle containing a number (1, 2, or 3.) creating a clear reading order. Font is Inter extra bold.

Asset: Pill_and_Sphere.png

Animation Logic

Phase 1:

- **Card 1 Entrance:** The first blue card fades in and scales up slightly from the center in a smooth fluid motion with a slight overshoot and settle.
- **Icon & Title:** The "Folder" icon and "Title One" fade in simultaneously within the card.

Phase 2:

- **Pill Expansion:** The white subtopic pill at the bottom of Card 1 grows horizontally, followed by the text "Paste Subtopic example 1" coming in which is animated using a typewriter effect.
- **The Ripple Effect:** Once Card 1 is complete, Card 2 begins its identical reveal animation, followed by Card 3.

Phase 3:

- All three pillars remain on screen, fully populated, to allow the viewer to compare the three points.
-

Design Strategy

This is your **"Service Menu" or "Core Values" layout**. Unlike the vertical lists used in previous templates, the horizontal arrangement suggests that these three points are of **equal importance**. It is a high-impact way to summarize a presentation or pitch by distilling everything down into three memorable pillars.
