

Template 10

A complex, multi-layered layout designed to group multiple supporting details under distinct categorical "Main Ideas." This design uses high-contrast color coding to differentiate between separate themes or chapters of information.

Color Palette

- **Primary Background (Left):** Platinum Blue (#E6ECF2).
- **Secondary Background (Right):** Oxford Blue (#052438). (Asset: Oxford_Blue_Splitscreen.png)
- **Category 1 (Blue):** Main Idea gradient and subtopic borders in Dodger Blue (#0496FF).
- **Category 2 (Pink):** Main Idea gradient and subtopic borders in Wild Strawberry (#F865B0).
- **Category 3 (Yellow):** Main Idea gradient and subtopic borders in Lemon Yellow (#FCFF6).
- **Main Icon Overlay:** Oxford Blue (#0B1E33) container with a large line-art "Presentation" icon.
- **Text:** Pure White (#FFFFFF) for high visibility against dark backgrounds.

Layout & Key Elements

The Visual Frame (Left)

- Occupies the left portion of the screen, featuring a rounded Oxford blue container. (Asset: Icon_Base.png)
- Features a large line-art icon from the icon library folder. The color combination for the icon is platinum blue base and dodger blue highlight.

The Grouped Information Panel (Right)

- **The Main Idea Headers:** Three prominent gradient pills (Blue, Pink, and Yellow) that act as headers for different sections. They contain placeholder text in satoshi black sized at 55px

Dodger Blue pill asset: Title_Pill_Dodger_Blue.png

Wild strawberry pill asset: Title_Pill_Wild_Strawberry.png

Lemon Yellow title pill asset: Title_Pill_Lemon_Yellow.png

- **The Supporting Detail Stacks:** Each Main Idea is followed by a pair of stadium-shaped "Supporting Detail" pills. They contain placeholder text in satoshi bold sized at 33px

Wild strawberry pill asset: Pill_Shell_Wild_Strawberry.png

Lemon Yellow pill asset: Pill_Shell_Lemon_Yellow.png

- **Consistent Iconography:** Main Ideas feature an oxford blue arrow icon (Asset:arrow-small-right.svg),

Animation Logic (The "Staged Roll-Out")

Phase 1:

- **The Background Split:** The platinum blue is already on screen and the oxford blue section (Oxford_Blue_Splitscreen.png) pans in from the right of screen to smoothly settle into its final position.
- **The Frame Reveal:** The left-side icon and container fade in to provide visual context first.

Phase 2:

- **Header Growth:** The first Dodger Blue Main Idea pill scales up smoothly from 0, overshoots slightly before settling into its final position
- **Subtopic Pop:** Supporting Details (1) and (2) appear underneath, followed by their specific text entries.

Phase 3:

- **Sequential Staggering:** As the first section finishes populating, the Wild Strawberry section begins its reveal exactly like the dodger blue section, followed finally by the Lemon Yellow section.
- **Visual Rhythm:** Each new category uses the same horizontal "growth" motion to maintain consistency despite the changing color schemes.

Design Strategy

This is your "**Comparative Analysis**" layout. By using three distinct colors, you are visually telling the viewer that these are three separate but related topics. It prevents a long list from feeling overwhelming by breaking it into "bite-sized" color-coded chapters, turning a standard presentation into an organized, high-density visual.
