

Template 7

A minimalist, horizontal layout featuring a sequence of four uniform circular action points. This design prioritizes visual symmetry and clarity, using the signature dodger blue accent to anchor the learner's eye across the progression.

Color Palette:

- **Background:** A clean, uncluttered Platinum Blue (#E6ECF2).
- **Icon Containers:** Dodger Blue (#0496FF)
- **Icons:** Pure White (#FFFFFF) line-art or glyph-style icons.
- **Point Labels:** Solid Black (#000000).

Layout & Key Elements:

- **The Horizontal Sequence:** * Four large, perfectly circular Dodger Blue containers are arranged in a single horizontal row.
 - They are evenly spaced with significant breathing room (gutters) to maintain the "uncluttered" feel.

Asset: *Base_Circle.png*

- **Placeholder Iconography:**
 - Each circle contains a **fully white** icon.
 - The icons should be centered perfectly within the blue circles, utilizing a consistent stroke weight to match the "Satoshi" font's clean lines.
- **Typography:**
 - Beneath each circle is a placeholder text label ("Point 1" through "Point 4").
 - **Font:** Rendered in **Satoshi Bold at 37px**.
 - **Alignment:** Centered directly under the corresponding circular icon to create a vertical axis for each point.

Animation Logic (The "Roller" Sequence):

- Each Circle with their icon scales up from 0. The first one scales up followed by the second and so on. Once all are scaled up, Circle one scales up again while its text underneath fades in. Circle two then does the same and so on.

Design Strategy: It is best used for high-level overviews where detailed descriptions aren't yet necessary. The repetition of the blue circles builds a mental pattern for the learner, signaling that each point holds equal weight in the process.
