

Template 6

A clean, structured summary layout designed to consolidate learning points. This template utilizes a "floating card" aesthetic against a soft gradient background, using high-saturation accents to draw attention to the primary heading.

Color Palette:

- Background: A soft, clean Platinum Blue (#E6ECF2) gradient.
- Main Header Block: Dodger Blue (#0496FF).
- Icon Containers: Dodger Blue (#0496FF)
- Recap Pills: Pure White (#FFFFFF).
- Primary Text: Pitch Black (#000000) for readability.
- Header Text: Pure White (#FFFFFF).

Layout & Key Elements:

- The Hero Header (Top-Left):
 - A large, vertically-oriented rectangle with highly rounded corners.
 - Contains the text "Course Summary" rendered in Inter Extrabold at 74px.
 - The text is left-aligned with tight line spacing to create a "chunked" visual block.

Use asset: **Course_Summary_Banner.png** for this

- The Recap List (Center-Right):
 - A vertical stack of six uniform "Recap Pills." Asset:
 - Pill Structure: Each pill is a long horizontal white rectangle with rounded corners.
 - The Icon Anchor: Each pill is anchored on the left by a square, rounded-corner blue box. Inside this box is a white Kubicle logo
 - Text Integration: The text "Paste Course Recap X" starts immediately to the right of the blue icon box, rendered in Satoshi Bold at 37px.

Use asset: **Course_Summary_Pill.png** for each pill

- Depth Effects: * Every element (the header block, the icon boxes, and the white pills) features a soft, diffused drop shadow. This gives the template a multi-layered, modern UI feel.

Animation:

The sequence follows a top-down, physics-based "unrolling" effect that emphasizes depth and fluid motion.

- **Header Entrance:** The **Course_Summary_Banner.png** begins off-screen and pans down into the top-left anchor position.
- **Sequential Roll-Out:** Once the banner is locked, the recap pills emerge using a "hidden-layer" logic.
 - **Pill 1** rolls out first from the top.
 - **Pill 2** then rolls out and slides down from directly "underneath" Pill 1.

- **Motion Profile:** Each subsequent pill follows this "emerge and drop" pattern in a **slow, eased-out motion**, creating a cascading accordion effect until the list is complete.
