

Template 8

A dynamic, asymmetrical layout that pairs a large, high-impact graphic with a structured list of points. This design utilizes a "layered gradient" effect on the list items to create a sense of motion and progress.

Color Palette:

- **Background:** Platinum Blue (#E6ECF2).
- **Icon:** Oxford Blue (#0B1E33) outlines with Dodger Blue (#0496FF) accents.
- **Feature Pills:** A vibrant Dodger Blue (#0496FF) linear gradient,
- **Checkmark Containers:** Pure White (#FFFFFF) circles.
- **Checkmark Icon:** Dodger Blue (#0496FF).
- **Pill Text:** Pure White (#FFFFFF).

Layout & Key Elements:

- **The Icon (Left):**
 - Occupies the left 40% of the screen.
 - Features a large, clean line-art icon.
- **The Responsibility Stack (Right):**
 - A vertical stack of five uniform, stadium-shaped "Pills."

Asset: Pill_Base.png

- **Pill Design:** Each pill features a white circular "Checkmark" icon on the far left.

Asset: Pill_Circle.png

- **Checkmark:** A thick, Dodger Blue tick mark centered in the white circle.

Asset: Tick.png

- **Text Integration:** "Responsibility 1" through "Responsibility 5" rendered in **Satoshi Bold at 37px**, left-aligned within the blue pill. This text is editable and "Responsibility 1" etc are only placeholders

Animation Logic (The "Layered Roll-Out"):

Phase 1: The Hero Reveal (0:00 - 0:01)

- **The Graphic:** The large icon fades in on the left side. It does not slide; it appears with a soft 0.5s opacity transition to establish the context immediately.

Phase 2: The Pill Growth (0:01 - 0:02)

- **The Base Layer:** All five blue gradient pills emerge simultaneously, but their growth is horizontal.
- **Motion:** The pills "grow" from the left side toward the right, using a smooth, linear-to-ease-out expansion. By 0:02, the structural layout of the list is fully visible, though empty of content.

Phase 3: The Content Slide-In (0:02 - 0:15)

This is the "Value Reveal" phase. Each row is completed one by one in a staggered sequence:

1. **The Icon Slide:** The white circle (Asset: Pill_Circle.png) enters from the **right side** of the blue pill and slides across to its anchored position on the far left. There is a tick animation trim paths effect on Tick.png so it looks like someone is ticking a box.
2. **The Text Fade:** As the white icon circle reaches its destination, the **Satoshi Bold** text (e.g., "Responsibility 1") fades in next to it.
3. **The Stagger:**
 - **Row 1:** Icon slides and text fades.
 - **Row 2:** Begins its icon slide exactly as Row 1's text finishes fading.
 - **Consistency:** This pattern repeats down the stack until all five responsibilities are "checked" and visible.

Design Strategy: This is your "Authority Checklist." By using a large icon and blue "status" pills with checkmarks, you are visually communicating that these points are confirmed, essential, and professional. It turns a standard list into a high-trust verification screen.
