

Template 5.

Color Palette:

- **Left Side Background:** Platinum Blue (#E6ECF2).
- **Right Side Background:** Oxford blue (#052438). Asset : Oxfordblue_splitscreen_BG.png
- **Pill Accent 1 (Left):** Dodger Blue (#0496FF). Asset : Pill_1_left_side.png
- **Primary Accent 2 (Right):** wild strawberry (#F865B0). Pill_1_right_side.png
- **Pill Background (Left):** Oxford blue (#052438). Asset : Pill_1_left_side.png
- **Pill Background (Right):** platinum blue (#E6ECF2). Pill_1_right_side.png

Layout & Key Elements:

- **The Split Screen:** The canvas is divided exactly 50/50 vertically.
- **Group Titles:** * Positioned at the top of each respective column.
 - **Group 1 Title:** Rendered in **Inter Extrabold at 55.5px** in Dodger Blue (#0496FF).
 - **Group 2 Title:** Rendered in **Inter Extrabold at 55.5px** in Wild strawberry (#F865B0).
- **The Content Pills:** * Each column contains four horizontally elongated "pills" with fully rounded corners (stadium shape). Assets : Pill_1_left_side.png & Pill_1_left_side.png
 - **Pill Text:** All internal text (e.g., "Text 1", "Text 5") is rendered in **Satoshi Bold at 37px**.
 - Left Column text is **White**.
 - Right Column text is **Black**.
- **Iconography:**
 - Every pill is preceded by a circular icon container that slightly overlaps the left edge of the pill.
 - **Left Icons:** Circular Dodger Blue base with white interface icons within circular base. The icons fit comfortably within the circle.
 - **Right Icons:** Circular Wild strawberry base with white interface icons. The icons fit comfortably within the circle.

Design Strategy: This template is the "Comparison Engine." By using a stark dark-vs-light contrast, it forces the learner to distinguish between two sets of data or concepts immediately. The consistent use of the circular icons provides a visual anchor that guides the eye downward through the list, turning a standard bulleted list into a high-end interactive menu.

Animation: Oxfordblue_splitscreen_BG.png pans in from the right side of the screen. Titles fade in and All 8 pills scale up smoothly from 0 all offset from each other (Example pill 1 scales up slightly before pill 2 and pill 2 then scales up slightly before pills 3 etc).
