

Template 12

A structured, split-screen layout optimized for explaining linear workflows or step-by-step guides. This design pairs a large, thematic "Action" icon with a high-contrast task list.

Color Palette

- **Icon & Container (Right)** : White icon (From icon Library) on top of a dodger blue (#0496FF) container
 - **Primary Background**: Platinum blue (#E6ECF2)
 - **Process Container (Right)**: Oxford blue (#052438) rounded rectangle.
 - **Header Bar**: Linear Gradient of Dodger Blue (#0496FF)
 - **Enumeration Circles**: Dodger Blue (#0496FF).
 - **Text**: Pure White (#FFFFFF) for maximum legibility on dark surfaces.
-

Layout & Key Elements

The Visual Anchor (Left)

- Occupies the left 45% of the frame.
- Features a large, white line-art Icon from the icon library folder on top of a dodger blue container

Asset: Icon_Base.png

The Step-by-Step List (Right)

- **The List Container**: A dark, rounded rectangle that houses the entire process stack.

Asset: Container_right.png

- **Progress Bar**: A thin, dodger blue line at the top of the container that visually anchors the list and progresses as each point is revealed. Just like you did with the loading bar in the 3_Big_Points_v2.html.

Dodger blue loading bar asset: Loading_Bar_Top.png

Loading bar base asset: Loading_Bar_Base.png

- **Numbered Milestones**: A vertical stack of five blue circular icons, each containing a white number (1 through 5). The number should be Inter extra bold and should fit nicely centred within the circle.
- **Task Text**: "Paste Step One..." through "Paste Step Five..." aligned horizontally with each number. The text font is Satoshi bold and sized at 37px

Animation Logic

Phase 1:

- **The Split Reveal:** The blue left panel with the icon slides in very smoothly while the right container with the loading bar base fades up simultaneously.

Phase 2:

- **The Numbers:** The blue numbered circles with their corresponding numbers smoothly scale up with a subtle overshoot and bounce one by one from top to bottom.
 - **The Typing Effect:** As each number appears, the corresponding step text populates using a "typewriter" effect, simulating live data entry.
 - **The Stagger:** Each new step begins its reveal just as the previous step's text finishes, creating a rhythmic, downward momentum.
-

Design Strategy

This is your "**Operational Roadmap.**" By placing the text inside a dedicated black container and using numbered circles, you provide a clear sense of order and completion. It is designed to take a complicated set of instructions and make them feel like a simple, achievable checklist.
