

Template 14

A balanced, three-part composition designed to show how two distinct elements combine to create a greater result. This layout uses a "sum of its parts" visual logic, perfect for explaining partnerships, integrated solutions, or dual-resource strategies.

Color Palette

- **Background:** Deep Oxford Blue (#052438).
 - **Outer Frames:** Dodger Blue (#0496FF) thin outlines.
 - **Central Connector:** Dodger Blue (#0496FF) linear gradient.
 - **Icons:** Pure White (#FFFFFF) line art with Dodger Blue (#0496FF) Highlights.
 - **Title Pills:** Linear Gradient of Dodger Blue (#0496FF)
 - **Text:** Pure White (#FFFFFF).
-

Layout & Key Elements

The Input Frames (Left & Right)

- Two identical, outlined squares flank the center of the screen.

Left asset: Left_Shell_Box.png

Right asset: Right_Shell_Box.png

- **Visual Anchor:** Each square contains a large icon from our icon Library,
- **Labeling:** Each frame features a footer pill for specific titles (e.g., "Paste Icon Title 1"). The text font is Satoshi Bold and sized at 37px

The Connector (Center)

- A vertical rectangle sits between the two input frames.

Asset: Middle_Base.png

- **The Icon:** A large, centered Icon acts as the link, visually linking the two side elements together. Use interface icons from flaticon for this- <https://www.flaticon.com/uicons/interface-icons>
-

Animation Logic

Phase 1:

- **The Background:** The dark Oxford Blue background (Asset: BG.png) scales up over 2 seconds.

- **The Connector:** The central rectangle and its icon scale up from the centre, rotating 180 degrees as it settles into its final position. It acts as the anchor point for the animation.

Phase 2: The Side Entry

- **The Frames:** The left and right Dodger Blue outlines with their icons slide in from their respective sides toward the center.
- The text within each pill fade in simultaneously.

Phase 3: The Complete Equation (0:03 - 0:15)

- The full assembly remains static, emphasizing the relationship between the three components.
- The symmetry of the final composition provides a sense of balance and completeness.

Design Strategy

This is your "**Collaboration & Integration**" layout. By placing a large icon between two identical frames, you are visually communicating that these two items are meant to work in tandem. It is highly effective for showing how "Product A + Product B" leads to a specific outcome, or how two different departments contribute to one unified goal.
